Note : there is no requirement in the MPEP that the Specification must have a section entitled Brief Description of the drawings. The only requirement is that the figures be referred to and described,

see for example :

37 CFR § 1.74 Reference to drawings.

When there are drawings, there shall be a brief description of the several views of the drawings and the detailed description of the invention shall refer to the different views by specifying the numbers of the figures and to the different parts by use of reference letters or numerals (preferably the latter).
